

PUBLISHED PROGRAMME ANALYSIS

Publishing date: 2017-09-18

The programme analysis has been completed and published by the programme coordinator. The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration, Student Centre.

Master Programme in Information Systems, 120 ECTS cr
Programme coordinator: John Sören Pettersson

Basic LADOK data

Programme code: SAINF
Specialisation:
Application code: 69173
Starting semester: HT -15
Pace of study: 100%
Form of study: Campus
City: Karlstad

Programme data

Number of students registered on the programme^[1]: 2
Number of current programme students^[2]: 2
Number of academic year questionnaires answered^[3]: 2

Number of registered students per semester

Semester	Total number of registered students	% in relation to semester 1
1	4	100
2	3	75
3	3	75
4	3	75

Programme evaluation

Student evaluation compilation

1. I think that the courses in the degree programme were relevant to the required learning outcomes.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all
- E) Don't know

2. The order of the courses was adapted to the required learning outcomes.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all
- E) Don't know

3. I was academically prepared for carrying out the concluding independent degree project.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all
- E) Don't know

4. I think that the degree programme has challenged my way of thinking, and that my studies have offered intellectual challenges.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all
- E) Don't know

5. By following this degree programme, I have developed the competences and skills I expect to need in future professional activities

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all
- E) Don't know

6. I would recommend this degree programme to others.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all
- E) Don't know

Summary of student evaluations based on the questionnaire, free text comments and any other data.

The workload of the course "Scientific Theory and Methodology" has been unproportional.

The programme coordinator's final analysis.

Some students did not follow the plan for the first semester. Of four students, only one reached an exam after two years; working in a research project was a driving force behind this success. Another student has also been partly employed by a research project but has not completed reports and thesis for ECTS credits but otherwise keeping the pace. A third student has after two years not yet produced a sufficient master thesis. The fourth student took a leave from the studies for a job at a local web company, and is planning to do the thesis part-time in 2018.

Suggestions for improvements.

The course "Scientific Theory and Methodology" will henceforth be kept within its 7.5 ECTS size, and care will be taken that the examination will follow what is in the course plan.

¹ Registered programme student current cohort, no approved leave, no non-completion and registered for a course at Kau current semester.

² Number of students who have not clicked "No" - "I am not a student on the programme stated above this academic year" in the evaluation.

³ Number of students who answered at least 1 question, or commented in free text field.
