PUBLISHED PROGRAMME ANALYSIS

Publishing date: 2023-11-16

The programme analysis has been completed and published by the programme coordinator. The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration, Student Centre.

Master in Computer Science, 120 ECTS cr
Programme coordinator: Per Hurtig

Basic LADOK data

Programme code:	TAMCS
Specialisation:	
Application code:	70347
Starting semester:	HT -21
Pace of study:	100%
Form of study:	Campus
City:	Karlstad

Programme data

Number of students registered on the programme[1]:	3
Number of current programme students[2]:	3
Number of academic year questionnaires answered[3]:	0

Programme evaluation

Student evaluation compilation

The distribution of answers to the individual questions are not displayed because the response rate is lower that 25% of the current number of programme students.

1. I think that the courses in the degree programme were relevant to the required learning outcomes.

A. To a very great extent
B. To a great extent
C. To a certain extent
D. To a very little extent/Not at all
E. Don't know

2. The order of the courses was adapted to the required learning outcomes.

A. To a very great extent
B. To a great extent
C. To a certain extent
D. To a very little extent/Not at all
E. Don't know

3. I was academically prepared for carrying out the concluding independent degree project.

A. To a very great extent
B. To a great extent
C. To a certain extent
D. To a very little extent/Not at all
E. Don't know

4. I think that the degree programme has challenged my way of thinking, and that my studies have offered intellectual challenges.

A. To a very great extent
B. To a great extent
C. To a certain extent
D. To a very little extent/Not at all
E. Don't know

5. By following this degree programme, I have developed the competences and skills I expect to need in future professional activities

A. To a very great extent
B. To a great extent
C. To a certain extent
D. To a very little extent/Not at all
E. Don't know

6. I would recommend this degree programme to others.

   A. To a very great extent
   B. To a great extent
   C. To a certain extent
   D. To a very little extent/Not at all
   E. Don't know

**Summary of student evaluations based on the questionnaire, free text comments and
any other data.**

No students have answered the survey, and it's therefore very hard to provide a good summary.

The programme coordinator's final analysis.

We have recently restructured the entire programme to be better aligned with the research that is conducted within the Computer Science department. Although no masters' students have answered this survey we have gotten positive feedback on the courses from students that are enlisted in the masters of engineering programme in computer science. This is a five year programme that "shares" the last two years with the masters programme.

Based on the feedback of those students, the newly restructured programme were overall good, but had some initial problems in, e.g., a too high workload in the beginning of the studies.

Suggestions for improvements.

We plan to restructure the internals of some courses to reduce the workload. We also plan to intensify the recruitment of students to the programme, to get a critical mass of students.

---

[1] Registered programme student current cohort, no approved leave, no non-completion and registered for a course at Kau current semester.

[2] Number of students who have not clicked "No" - "I am not a student on the programme stated above this academic year" in the evaluation.

[3] Number of students who answered at least 1 question, or commented in free text field.
