Content

The aim of the course is to provide broad and in-depth knowledge of management control, with a special focus on both desired and unwanted effects of management control practices and systems. Sustainability issues are also covered, as is the significance of design, use, complementarity, and context in relation to management control.

Reading List

See separate document.

Examination

Learning outcomes 1-6 are assessed based on active participation in seminars.
Learning outcomes 2-7 are assessed based on an individual written hand-in assignment.
Learning outcome 7 is also assessed based on individual written summaries of research articles.

If students have a decision from Karlstad University entitling them to Targeted Study Support due to a documented disability, the examiner has the right to give such students an adapted examination or to examine them in a different manner.

Grades

One of the grades Distinction (VG), Pass (G), or Fail (U) is awarded in the examination of the course.

Quality Assurance

Follow-up relating to learning conditions and goal-fulfilment takes place both during and upon completion of the course in order to ensure continuous improvement. Course evaluation is partly based on student views and experiences obtained in accordance with current regulations and partly on other data and documentation. Students will be informed of the result of the evaluation and of any measures to be taken.

Course Certificate

A course certificate will be provided upon request.
