Course Approval

The syllabus was approved by the Faculty of Health, Science and Technology 2017-09-07, and is valid from the Spring semester 2018 at Karlstad University.

Prerequisites

At least 60 higher education course credits and upper secondary level Swedish 3 or B, or Swedish as a second language 3 or B, and English 6 or B, or equivalent.

Learning Outcomes

Upon completion of the course, students should be able to:

Knowledge and understanding

- identify and reflect on different definitions and different forms of child maltreatment,
- state early signs and symptoms of child maltreatment,
- give an account of and problematise the occurrence of child maltreatment in a historical and international perspective,
- describe short- and long-term effects of child maltreatment at the individual and societal levels.

Competence and skills

- identify protective- and risk factors for child maltreatment at individual, group and society levels,
- develop the ability to approach children and families in a professionally and respectful way,
- reflect on the importance of professional cooperation and collaboration when working with child maltreatment

Judgement and approach

- assess and address children's rights based on conventions and legislation,
- relate child maltreatment to public health policies and national public health goals.

Content

The course is offered as part-time distance education. Instruction at campus meetings are in the form of lectures, group work and examination seminars. The course comprises the following components:

- definitions of child maltreatment and different forms of violence against children
- occurrence of child abuse
- consequences of child maltreatment
- signs and symptoms of child maltreatment
- the disclosure process
- protective- and risk factors for child maltreatment
- professional conduct
- cooperation and collaboration when working with child maltreatment
- the rights of the child
- public health policy and national public health goals.

Reading List

See separate document.

Examination

Assessment is based on an individual hand-in assignment and assignments presented and discussed at mandatory seminars.

Grades

One of the grades Distinction (VG), Pass (G), or Fail (U) is awarded in the examination of the course.

Quality Assurance

Follow-up relating to learning conditions and goal-fulfilment takes place both during and upon completion of the course in order to ensure continuous improvement. Course evaluation is partly based on student views and experiences obtained in accordance with current regulations and partly on other data and documentation. Students will be informed of the result of the evaluation and of any measures to be taken.

Course Certificate

A course certificate will be provided upon request.

Additional information

The course is offered at master's level to students on the VAMAS master programme in public health. It is also open to other students.

The local regulations for studies at the Bachelor and Master levels at Karlstad University stipulate the obligations and rights of students and staff.

Students must have access to an internet connected computer for information on course content and submission of assignments.
