### **Content**

The course covers approaches, methods, and models for business development. Key concepts such as organisation, information systems, IT, business process, method, and modelling are treated both theoretically and in practice.

Instruction is in the form of lectures/recorded lectures, supervision, practical cases, and seminars.

### **Reading List**

See separate document.

### **Examination**

Assessment is based on a written exam.

Learning outcomes 4, 5, 7, and 8 are also assessed based on a written hand-in assignment completed in groups.

If students have a decision from Karlstad University entitling them to Targeted Study Support due to a documented disability, the examiner has the right to give such students an adapted examination or to examine them in a different manner.

### **Grades**

One of the grades Distinction (VG), Pass (G), or Fail (U) is awarded in the examination of the course.

### **Quality Assurance**

Follow-up relating to learning conditions and goal-fulfilment takes place both during and upon completion of the course in order to ensure continuous improvement. Course evaluation is partly based on student views and experiences obtained in accordance with current regulations and partly on other data and documentation. Students will be informed of the result of the evaluation and of any measures to be taken.

### **Course Certificate**

A course certificate will be provided upon request.

### **Additional information**

The local regulations for studies at the Bachelor and Master levels at Karlstad University stipulate the obligations and rights of students and staff.
