Syllabus

Degree Project Primary Education, Preschool class and Grades 1-3: Science and Technology

Course Code:	LXAG77
Course Title:	Degree Project Primary Education, Preschool class and Grades 1-3: Science and Technology <i>Examensarbete Grundlärarprogrammet, Förskoleklass och årskurs 1-3 - NO/Teknik</i>
Credits:	30
Degree Level:	Master's level
Progressive Specialisation:	Second cycle, has only first-cycle course/s as entry requirements (A1N)

Major Field of Study:

Course Approval

The syllabus was approved by the Board of Teacher Education 2017-09-04, and is valid from the Spring semester 2018 at Karlstad University.

Prerequisites

Completed courses LPGG01, LPGG02, LPGG04, LPGG17, LPAG01, LPAG02, and LPAG04 plus at least 22.5 ECTS credits completed for other subject courses.

Learning Outcomes

The aim of the course is that students develop further knowledge of research and development projects and ability to carry out an independent subject-specific research project with relevance to teaching and their future teaching profession.

Upon completion of the course, students should be able to:

Upon completion of the course, students should be able to:

1. independently identify, formulate and delimit a relevant subject-specific problem,
2. apply methods for literature searches and select literature relevant to the chosen topic,
3. collect, analyse and compile an empirical material,
4. refer to, analyse and critically review academic literature and empirical data from the perspective of a subject-specific problem,
5. argue for the chosen research methods and theories and the data collections and analyses, and identify any errors in the choice of methods and theories,
6. evaluate the result of their own work in relation to previous research and identify the need of further research in the area in question,
7. structure and write a thesis using adequate language and correct treatment of formal aspects,
8. justify the legal restrictions and ethical principles involved in different types of research methods

and material, and

9. defend their own project orally and serve as a peer reviewer.

Content

Students carry out a supervised independent project based on a subject-specific research question related to teaching.

Students carry out a supervised independent project based on a subject-specific research question related to teaching.

The course comprises the following components: -formulating a research topic, aim and problem

-literature seminars on seminal research articles -ethical perspectives on research

-choosing methodological approach and justifying its relevance to the problem -methods of searching literature and performing a systematic search in the chosen area -collecting, analysing and compiling empirical data

-analysing and discussing the empirical data in relation to theory, aim and questions -presenting the investigation in writing

-defending the project in a seminar

-serving as a peer reviewer

Reading List

See separate document.

Examination

Learning outcomes 1-7 are assessed on the basis of a written independent project.

Learning outcome 8 is assessed on the basis of an written individual assignment.

Learning outcome 9 is assessed on the basis of seminar performance as respondent and peer reviewer.

Grades

One of the grades Distinction (VG), Pass (G) and Fail (U) is awarded in the examination of the course.

Quality Assurance

Follow-up relating to learning conditions and goal-fulfilment takes place both during and upon completion of the course in order to ensure continuous improvement. Course evaluation is partly based on student views and experiences obtained in accordance with current regulations and partly on other data and documentation. Students will be informed of the result of the evaluation and of any measures to be taken.

Course Certificate

A course certificate will be provided upon request.

Additional information

The local regulations for studies at the Bachelor and Master levels at Karlstad University stipulate the obligations and rights of students and staff.
