

Faculty of Arts and Social Sciences
Statistics

Syllabus

Introduction to Linear Methods with Applications in R

Course Code:	STGA22
Course Title:	Introduction to Linear Methods with Applications in R <i>Introduktion till linjära metoder med tillämpningar i R</i>
Credits:	7.5
Degree Level:	Undergraduate level
Progressive Specialisation:	First cycle, has only upper-secondary level entry requirements (G1N)

Major Field of Study:
STA (Statistics)

Course Approval

The syllabus was approved by the Faculty of Arts and Social Sciences 2021-09-13, and is valid from the Spring semester 2022 at Karlstad University.

Prerequisites

15 ECTS credits completed in Statistics

Learning Outcomes

Upon completion of the course, students should be able to:

1. build prediction models,
2. analyse simple and multiple regression models,
3. evaluate simple and multiple regression models in terms of heteroscedasticity, multicollinearity, and autocorrelation,
4. use R to analyse data material, and
5. interpret the results of the analysis.

Content

The course covers the following:

- models for simple and multiple linear regression
- estimation with the method of least squares
- inference for regression parameters
- regression prediction
- hypothesis testing
- multicollinearity, heteroscedasticity, and autocorrelation
- R commands

Reading List

See separate document.

Examination

Assessment is based written and oral presentations of a number of group assignments and a written exam.

If students have a decision from Karlstad University entitling them to Targeted Study Support due to a documented disability, the examiner has the right to give such students an adapted examination or to examine them in a different manner.

Grades

One of the grades Distinction (VG), Pass (G), or Fail (U) is awarded in the examination of the course.

Quality Assurance

Follow-up relating to learning conditions and goal-fulfilment takes place both during and upon completion of the course in order to ensure continuous improvement. Course evaluation is partly based on student views and experiences obtained in accordance with current regulations and partly on other data and documentation. Students will be informed of the result of the evaluation and of any measures to be taken.

Course Certificate

A course certificate will be provided upon request.

Additional information

The local regulations for studies at the Bachelor and Master levels at Karlstad University stipulate the obligations and rights of students and staff.
