should also be analysed here. Any effect of joint courses should be commented on.

Analysen av kursen är att det även i år fanns otydligheter kring vad som gällde för de olika kurserna.

Tentan var bra och rättvis fast det var mycket att skriva.

Projektet bra, men vi ska eftersträva minst två studenter ska göra varje projekt.

Studiebesöket var mycket bra

Suggestions for changes to the next course date.

Kursen flyttas nu inom programmet vilket innebär att den inte kommer att gå under 2020 utan först 2021. Fram till dess ska en mer anpassad kurs design tas fram som:

- har tydligare energi- och miljö fokus fast fortfarande kopplat till skogsindustrin
- träkemidelen ska vara kvar fast med tydligare information kring vad miljö och energistudenterna ska kunna.
- fortfarande har samläsning med kemiteknik, och mer seminarium föreslås där studenterna tar upp olika processer fast från olika synvinklar
- har tydlig läsanvisning kring vad som gäller för respektive kurs

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
