on.

Very positive response from the students about course delivery. The only suggestion for improvement was to add more lectures and assignments. This was probably because the proficiency level of the students this term was in general much higher than that of previous students.

Suggestions for changes to the next course date.

It is perhaps not wise to make a sweeping decision on whether or not the difficulty level of the course should be increased, as we have to consider students of lower proficiency levels as well. However, I will think about having an additional set of assignments (more difficult ones) available and decide on what to use depending on students' needs.
