**Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented**

**on.**

Overall, the course received positive feedback and students seemed satisfied with the course. However, drawing broader conclusions from the feedback is challenging due to the low number of responses.

**Suggestions for changes to the next course date.**

Based on the feedback, the students could be provided more incentives to participate in the lectures. Although the low level of participation could also be a result of the current situation.
