**should also be analysed here. Any effect of joint courses should be commented on.**

Mostly OK in the present analysis. We have not heard of any particular negative feedback directly from the students. The results on the written exam can be improved.

**Suggestions for changes to the next course date.**

The course has been running OK for several years in the present setup. Course developments are due for major changes. Approved project work has been awarded bonus points to the written exam. Probably a good proposal to change this.
