Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

The course is supposed to be on Campus and comments are related to this, and quite understandable. Not optimal to have in this form as an online course, and this was a quicker adaption to the new form.

Suggestions for changes to the next course date.

Some of the adaptations might be valuable to keep for the coming on campus lectures, while others are not.
