**has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented on.**

The number of hours on coursework per week is (for some students) too low. Some students prefer more lectures/workshops based on technology.

**Suggestions for changes to the next course date.**

More discussion groups in relation to screenings. Smaller tasks for students to do from week to week. For the development of the course, we need to strengthen the technology component further. We are also continuing to develop cooperation with the region and industry.

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
