Changes suggested in the course analysis of the previous course date: New course!

1. During the course I developed the knowledge, skills and other competencies described in the learning outcomes.

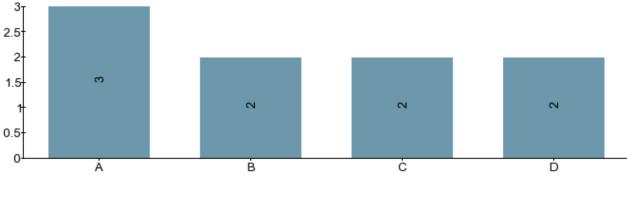

A) To a very great extent

B) To a great extent

C) To a certain extent

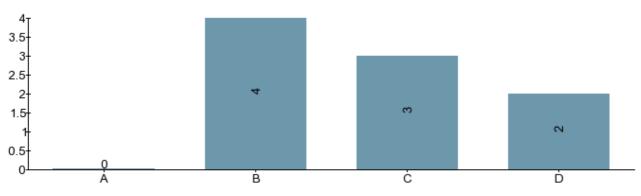

D) To a very little extent/Not at all

2. In the examinations, I had the opportunity to demonstrate if I have acquired the knowledge, skills and other competencies described in the learning outcomes.

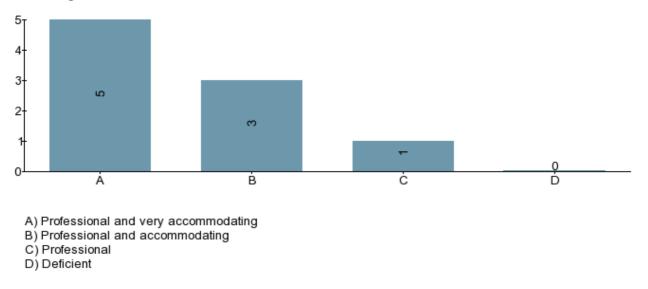

A) To a very great extent B) To a great extent C) To a certain extent D) To a very little extent/Not at all

3. On average, I spent the following number of hours on coursework per week:

A) More than 40 hours (or more than 20 hrs at 50% study pace, more than 10 hrs at 25% study pace) B) Between 30-39 hours (or between 15-19 at 50% study pace, between 8-10 at 25% study pace) C) Between 20-29 hours (or between 10-14 at 50% study pace, between 5-7 at 25% study pace) D) Less than 20 hours (or less than 10 at 50% study pace, less than 5 at 25% study pace)

4. During the course, I have found that teachers and other staff have been:

should also be analysed here. Any effect of joint courses should be commented on.

A new course aimed to students on varying levels in statistics depending on their previous studies (mainly other universities). The results from the students seems to be good. Some notes on the comments; 2 of 19 asks for better communication between teachers, and 2 of 19 considers the level of the course high.

Suggestions for changes to the next course date.

Next spring; clearer information to the students on the first day should be considered, especially information about the assignment. If possible maybe one more week of time is a good suggestion, though most of the material is required.

1. Number of first registrations for a course: First registration = the first time a student registers for a specific course.
