should also be analysed here. Any effect of joint courses should be commented on.

The one respondent that filled the course evaluation was overall very satisfied with the course given. He criticized the examination for (my guess is music history) to be too big. Also he found that he received the questions for the home exam to late.

Suggestions for changes to the next course date.

I will contact the teacher responsible to see if its possible to hand out the questions earlier in the process for their home exam. I will also ask him to look into if the examination is too big in relation to the course given.

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
