**Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented**

**on.**

Based on the in-class feedback session and the analysis above, the course was appreciated by most students. The Academic English assignment was described as very helpful and the podcast assignment as a fun activity. However, more instructions should be given on creating a podcast, and on-site facilities for recording activities should be suggested from the start of the course.

#### **Suggestions for changes to the next course date.**

Despite the low participation rate, the respondents pointed to an important area of improvement. The scheduling of the assignments should be changed. The deadlines for the Academic English and Podcast assignments should be moved to a mid-term week to allow for more preparation time for the digital exam. In addition, it was pointed out that Zoom sessions are not as good as on-campus meetings for providing feedback.
