should also be analysed here. Any effect of joint courses should be commented on.

Overall students seems to be satisfied with the course, There are some suggestion on expanding the web-design part and some complains about the technical parts not working.

Suggestions for changes to the next course date.

As this was the first time we had this course there were some technical issues with software that wasn't installed. We should try to plug all this holes until next time. We had oral suggestions about having the second part of the course first and we will look into that for the next year.
