## Changes suggested in the course analysis of the previous course date:

The course was conducted according to a similar basic structure and with the same course literature. However, the time for lecturing was extended and a new take-home exam focusing on research design was implemented.

2. In the examinations, I had the opportunity to demonstrate if I have acquired the knowledge, skills and other competencies described in the learning outcomes.

- C) To a certain extent
- D) To a very little extent/Not at all

3. On average, I spent the following number of hours on coursework per week:

- A) More than 40 hours (or more than 20 hrs at 50% study pace, more than 10 hrs at 25% study pace)
- B) Between 30-39 hours (or between 15-19 at 50% study pace, between 8-10 at 25% study pace)
- C) Between 20-29 hours (or between 10-14 at 50% study pace, between 5-7 at 25% study pace)
- D) Less than 20 hours (or less than 10 at 50% study pace, less than 5 at 25% study pace)

4. During the course, I have found that teachers and other staff have been:

- A) Professional and very accommodating
- B) Professional and accommodating
- C) Professional
- D) Deficient

**should also be analysed here. Any effect of joint courses should be commented on.**

As mentioned above, there is probably space for some more complex assignments involving deeper engagement with the literature.

**Suggestions for changes to the next course date.**

I am not sure about what the students think about the course literature. But I will look over the books and try to update the list. An important task is also to create a clear link and progression between this course and preceeding course on Advanced Professional Skills, especially concerning methodology. The methodology lessons of MKAD05 ought to begin at a higher level than what is currently the case.
