Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

As only one student has filled in the course evaluation form, it is unclear how valuable the evaluation is. I do note the comment re: seminars - the course could easily be changed to include a seminar component. However, I also note that in previous iterations of the course, students wished for fewer seminars and more support in writing the communication plan assignment.
