Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

This analysis is based on three answers but since the course only had four participants, they should be taken into account. I agree with all the comments on the problems with the administration of the course. There were several practical issues that complicated the course this year, issues that should not have happened, and that are the responsibility of the persons responsible for both the program and the course. I think they were also negatively affected by the distance work situation.

Suggestions for changes to the next course date.

Consider clarifying the course document as a whole, it could use simplification. Also consider clarifying and perhaps changing the course assignments.

Consider how teaching hours are allocated.
