The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

Arbetsrapport MIGIK3 Musikalisk interpretation, ht2023

Svarsfrekvensen är 25%. Studenten har inte svarat på alla frågorna vilket ger ett ganska spretigt diagram. Det verkar dock som att kursen har varit värdefull för studenten. Dock förekom synpunkter på sjukdomsfall som minskat antalet lektioner. Detta kan inte föranleda några åtgärder vad gäller förändringar i kursen.
