The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

MIGIK5 ht 2023

Svarsfrekvensen är en person av 5, 20%. Personen är väldigt nöjd med kursen och är en sk "ambassadör" för kursen. Speciellt nöjd är studenten med att man kunnat få spela både på huvud och biinstrumentet. Kursen är ett värdefullt tillfälle att få ytterligare input från någon annan än huvudläraren. utifrån denna utvärdering kan man bara dra slutsatsen att ytterligare förändringar inte är nödvändiga.
