| *Number of registered students*  4 | *Number of completed course evaluation forms* | *Number of participants in oral course evaluation*  *in class* ___4____  *as representatives* _____ | |

## Changes made in preparation of this course date

*Changes made since previous course date.*
Seminar topics, including lecture material and readings, were updated to reflect current trends and on-going research in the Department. Emphasis was put on getting the independent study part started with a new in class follow-up added mid-way through the independent study.

## Comments by course director

*E.g. Experience from present course date. Does the course plan need revising? Have earlier changes led to expected results? Comments regarding the present course evaluation.*
Overall the course format and content is working well. The students in the spring 14 course were all very active leading to very good discussions in class. All the students were also happy with the course.

## Changes to be undertaken before next course date according to course director

Look over topics and reading materials, and update to match current trends and on-going research in the Department.
