The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

Course supervisor's comments

Studenterna var överlag nöjda med kursen. Flera lyfte att seminarierna fortsatt fungerar som ett mycket bra komplement till kurslitteraturen och föreläsningarna, och att de bidrar till ökad förståelse och fördjupad diskussion. Grupparbetet har utökats till att omfatta egna undersökningar i labbmiljö eller fältmiljö, vilket uppskattades av studenterna och stärker kopplingen mellan teori och praktik. Vi kommer framöver att fortsätta utveckla och utöka detta moment för att ytterligare öka studenternas aktiva deltagande och praktiska färdigheter.
