**Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented**

**on.**

The number of first registrations is much lower than the actual number of students who participated in the course (5 vs. 20). From the students' feedback given on other occasions, they were quite satisfied with the course content and delivery.

**Suggestions for changes to the next course date.**

No changes have been planned for the next term, but the course content can vary slightly depending on students' actual needs.
