**should also be analysed here. Any effect of joint courses should be commented on.**

Some of the students had attended the course before and that could have affected the students opinion about how they developed the knowledge, skills and other competencies during this course this semester. During the class evaluation some of the students claimed it to be positive that the course language was mainly Swedish, so the opinion seems to be divided. We still don't know if the international students received the course evaluation so that needs to be ensured.

**Suggestions for changes to the next course date.**

Ensure that the course evaluation is received by everyone.

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
