The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

Course supervisor's comments

Av 11 förstagångsregistrerade studenter var det 4 som besvarade enkäten. Studenterna uppskattade speciellt föreläsningsserien, kursinnehållet, kursmaterialet (kompendiet, inte boken), strukturen på lektionspassen, samt examinationen. Vissa studenter skriver att kursen var rolig, lärorik och användbar då den skapar en bra grund för framtida lärare, medan andra studenter önskar en tydligare koppling till praktiska applikationer i en klassrumskontext. Kursboken upplevdes som svår. Studenterna önskade mer tid för diskussion av några områden som berördes i mindre grad än andra i de praktiska diskussions- och övningsmomenten. Framtida studenter rekommenderas att se på de förinspelade föreläsningarna samt vara aktiva och använda klassrumstiden till att ställa frågor.
