Reflections and measures after the completion of a course

Quote from Routines for course evaluation ratified by the faculty board EKI on January 28, 2011: "Course evaluations must be performed on all courses ... It is the responsibility of the examiner that a summary of the results of the course evaluation is made. As a supplement to the summary a reflection [= this form] must be made. A paper copy [of the summary and the reflection], signed by the examiner and the prefect, must be sent to the faculty office for tallying and archiving."

For courses pertaining to the teacher education, please, use the specially designed questionnaire administered by the Office of the Teacher Education.

		C	C J.4
Name of course		Corse code	Credits
Information Systems - Master's thesis, 30 ECTS Credits		ISA E09	30hp
 			
☐ Contract education			
Term/Study period	Course director		
Spring 2012	John Sören Pettersson		
Progressive specialization A2E	Examiner John Sören Pettersson

1	evaluation forms	evaluation	
	0 – he has not finished his	in class	
	thesis yet	as representatives	
Comments by course director E.g. Experience from present course date. Does the course plan need revising? Have earlier changes led to expected results? Comments regarding the present course evaluation. The student got a MFS grant from HumanIT during the spring then and ran off to Ghana at the end of the spring. Lots of interesting findings reported to supervisor (=JSP) in the beginning of the autumn but the student in the same time entered Magisterprogrammet i projektledning why he has not had that much time to present any coherent texts yet.			
Changes to be undertaken before next course date according to course director
