**Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented**

**on.**

None of the four 'first-registration' students answered the course evaluation questionnaire, but there were more students who attended the course meetings regularly, completed all the assignments, and took part in the examination. On several occasions, the students expressed their appreciation of the course content and delivery as well as the feedback they had received from the teacher and their peers. All in all, it was an enriching experience both for the students and for the teacher.

**Suggestions for changes to the next course date.**

It will be explained more clearly from the beginning of the course how the examination is related to the expected learning outcomes of the course.
