

# PUBLISHED COURSE ANALYSIS

Publishing date: 2018-07-02

A course analysis has been carried out and published by the course convener.

The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration, Student Centre.

*Econometrics, 7.5 ETCS cr. (STGA02)*

*Course convener: Iris Wang*

## Basic LADOK data

Course Code: STGA02

Application Code: 28778

Semester: VT-18

Start Week: 201814

End Week: 201823

Pace of Study: 50%

Form of Study: Campus

## Course Data

Number of questionnaires answered: 1

Number of first registrations<sup>[1]</sup>: 10

## Changes suggested in the course analysis of the previous course date:

--Add more calculation examples in the course.

1. During the course I developed the knowledge, skills and other competencies described in the learning outcomes.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all

2. In the examinations, I had the opportunity to demonstrate if I have acquired the knowledge, skills and other competencies described in the learning outcomes.

- A) To a very great extent
- B) To a great extent
- C) To a certain extent
- D) To a very little extent/Not at all

3. On average, I spent the following number of hours on coursework per week:

- A) More than 40 hours (or more than 20 hrs at 50% study pace, more than 10 hrs at 25% study pace)
- B) Between 30-39 hours (or between 15-19 at 50% study pace, between 8-10 at 25% study pace)
- C) Between 20-29 hours (or between 10-14 at 50% study pace, between 5-7 at 25% study pace)
- D) Less than 20 hours (or less than 10 at 50% study pace, less than 5 at 25% study pace)

4. During the course, I have found that teachers and other staff have been:

- A) Professional and very accommodating
- B) Professional and accommodating
- C) Professional
- D) Deficient

**should also be analysed here. Any effect of joint courses should be commented on.**

Even there is only one student answered the course evaluation questions, it still gives some hints regarding how this course was:

1. Students think the course gave them knowledge regarding Econometrics.
2. Maybe more hours and effort should be put into the course and study.
3. The course needs advanced skills on mathematical calculations, so students should review and recap math before the course, rather than re-study math during the course. Most questions I got in the course are math calculation related.

**Suggestions for changes to the next course date.**

Give some background materials on math, which will be useful for students to understand.

- 
1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
