The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

Course supervisor's comments

Det var för få studenter som lämnat in (3), för att vi skulle kunna göra en djupare analys - dessutom var det väldigt olika vad de få studenterna hade fyllt i. Vi tar dock med oss lite synpunkter som kom fram i fritextkommentarerna. Vi kommer att se över introduktionen till nästa gång, och fundera över om vi kan uppdatera kurslitteraturen. Någon hade kommenterat att det är mycket kurslitteratur på engelska, vilket är naturligt i en utbildning på den här nivån.
