Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

The teaching staff is again very satisfied with the results. We re-worked the schedule this year, with double lectures on Mondays, and it worked well. The labs were offered both on campus and online. The assignments lectures are very popular among the students year after year. Menti quizzes and exercises have a very positive impact in student participation in the lectures.

The lectures being offered both in class and on distance worked well.

Some of the received comments on the course in general (additional comments field):

- + Great lectures, great teacher.
- + The assignment questions were really good and should be kept
- + Again, love the lectures.
- + Assignments where great.

Suggestions for changes to the next course date.

Upgrade some images used in the labs, apart from the regular updates of the course lectures.
