Kursens styrkor enligt studenterna The students agreed 1. That the course met the aims and outcomes specified in the syllabus (86%); 2. That assignments and activities were helpful learning opportunities (86%); 3. That instructor prepared materials were useful (72%), and 4. That the instructor gave useful feedback on assignments and exams (86%).			
Kursens svagheter enligt studenterna There should be more corrective feedback in class as well as more oral skills work.			
Analys av kursvärderings resultat The course seems to fulfill the goals set out in the course syllabus.			
Planerade åtgärder I'm attempting to provide more in-class feedback on oral work and to expand amount of time spent on improving pronunciation.			
Genomförda åtgärder I added a lot of small group discussion skills practice.			
Hur har återkoppling till berörda studenter skett? I discussed this with the students at different times during the course.

**10. Open question**

What did you find was most valuable or useful about the course?

- For me it was very valuable to gain an insight into academic writing. What I really appreciated was to have sometimes the chance to choose a topic e.g. for assignments that fits to your interest.  
The feedback sessions were also very helpful for me.
- 
- the feedback was really useful, even if I would have liked to receive it also for the works in class.
- The feedback sessions in class, and the comments from the instructor. I also

**11. Open question**

What, if anything, could be done to improve the course?

- Finishing the assignments from one week to another in time was often stressful and the requirements were always very high. In my opinion, what could be improved is the explanation of the assignments. For many students it was their first time that they wrote e.g. an annotated bibliography and clearer explanations and examples/ discussions of examples would have been helpful. In a way like we did it with the example essays for the final writing project .

What would have helped me is an exchange of experience in writing academic assignments, like a discussion. How did you organise your essay? How did you start to work? What was helpful for you? I think learning from classmates can be very effective.

- 
- spend more time doing exercises to improve oral skills.
- I think the panel discussion was a great thing! Maybe more of that. The smaller discussions we had before, on topics from the book, was good but sometimes a bit unordered.
