## Course analysis

### **VT2025\_ISAE09\_46610\_Informatik - Masteruppsats**

First time registered students: 7

Answer Count: 1

Answer Frequency: 14.29%

The course evaluation could be answered during the period:

07/06/2025 - 21/06/2025

---

When collaborative courses, several course codes are shown below:

**ISAE09 Informatik - Masteruppsats, End date: 2025-06-08**

## Comments

### Course supervisor's comments

This year only three student took on the Master's thesis work, both of which completed in June and one presenting at a conference in June but is expected to complete the course in August. All three worked on extensions of their ISAE06/07 projects or with similar things. At the same time, four previous students from the turn of the decade have been working part time on their theses and three of these passed. Possibly, students taking up old thesis projects after several years would benefit from a mock defence a month before planed defence date and thus benefitting from a hired opponent's sharp criticism. Of course, this would entail further costs for the department.
