Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

Based on verbal evaluations and online questionnaires, the course analysis indicates that students were generally satisfied with the course contents and structure, the examination process, and the teachers' contributions. However, the analysis also highlighted areas of improvement, such as the speed of feedback on student assignments.

Suggestions for changes to the next course date.

The course analysis revealed suggestions for change, including improving the speed of feedback on student assignments and reviewing the literature list on an ongoing basis to ensure it is up-to-date and relevant to the course content. These changes will help to further develop the course and enhance the learning experience for the students.
