The majority of the students think that they developed the knowledge, skills and other competencies described in the learning outcomes to a certain level. However, half of the students, who responded, think they had opportunity to demonstrate their skills in the examinations to a great extent. During a verbal evaluation moment and online evaluation, restructuring the seminar moments was suggested by the students.

Suggestions for changes to the next course date.

The course was given as half-time course for the first time. The course development process will continue. The course seminar, examination and lecture moments will be reviewed, and restructured.

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
