PUBLISHED COURSE ANALYSIS

Publishing date: 2024-03-06

A course analysis has been carried out and published by the course convener.

The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration.

Polymer Engineering, 7.5 ECTS cr. (MTAD22)

Course convener: Mikael Grehk

Basic LADOK data Course Data

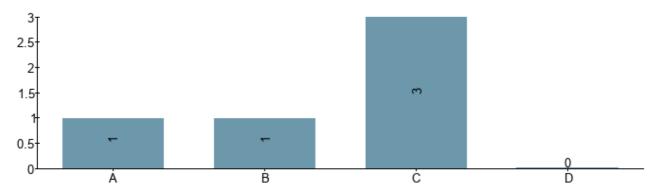

Course Code: MTAD22 Number of questionnaires answered: 5 Application Code: 40216 Number of first registrations [1]: 20

Semester: HT-22 Start Week: 202245 End Week: 202302 Pace of Study: 50% Form of Study: Campus

Changes suggested in the course analysis of the previous course date:

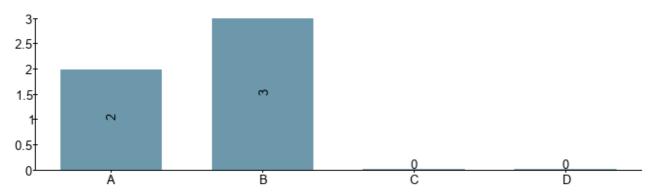

uu

1. The contents and structure of the course has supported the achievement of the learning outcomes

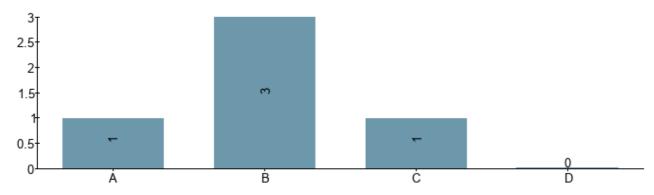

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

The assessments included in the course have given me the opportunity to demonstrate my achievement of the learning outcomes

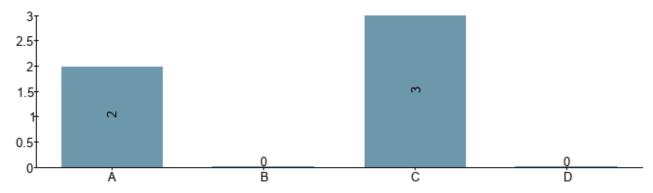

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

3. My workload (including scheduled activities and independent work) during the course has been

- A) 40 hours per week or more (or 20 per week or more for courses given as half-time studies, 10 hours or more for courses.
- B) Between 30 and 39 hours per week (or between 15 and 19 hours for courses given as half-time studies, or between 8
- C) Between 20 and 29 hours per week (or between 10 and 14 hours for courses given as half-time studies, or between 5
- D) Less than 20 hours per week (or less than 10 hours per week for courses given as half-time studies, or less than 5 h

4. During the course, I have experienced the reception from teachers and other staff as professional

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

on.

For this year the simulation lab was developed and changed, which resulted in a better flow and improved understanding for the students. One comment from a student was ?seminar and lab, course was structures very well and complimented the other courses deadlines?

Suggestions for changes to the next course date.

One comment from the students was to add a bit more focus on the introduction to polymers to better form an understanding of the chemical part in the course. This part will be given a more weight next year.

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
