

PUBLISHED COURSE ANALYSIS

Publishing date: 2022-08-15

A course analysis has been carried out and published by the course convener.

The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration.

Deformation and Failure, 7.5 ECTS cr. (MTAD12)
Course convener: Mikael Grehk

Basic LADOK data

Course Code: MTAD12
Application Code: 37752
Semester: VT-22
Start Week: 202213
End Week: 202222
Pace of Study: 50%
Form of Study: Campus

Course Data

Number of questionnaires answered: 3
Number of first registrations^[1]: 12

Changes suggested in the course analysis of the previous course date:

--

1. The contents and structure of the course has supported the achievement of the learning outcomes

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

2. The assessments included in the course have given me the opportunity to demonstrate my achievement of the learning outcomes

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

3. My workload (including scheduled activities and independent work) during the course has been

- A) 40 hours per week or more (or 20 per week or more for courses given as half-time studies, 10 hours or more for cour
- B) Between 30 and 39 hours per week (or between 15 and 19 hours for courses given as half-time studies, or between 8
- C) Between 20 and 29 hours per week (or between 10 and 14 hours for courses given as half-time studies, or between 5
- D) Less than 20 hours per week (or less than 10 hours per week for courses given as half-time studies, or less than 5 h

4. During the course, I have experienced the reception from teachers and other staff as professional

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

The course has worked rather well this year. Particular the case study was as always appreciated by the students. One problem is that the main course book (Hertzberg, Richard W. Deformation and fracture mechanics of engineering materials.) is old and rather expensive.

Suggestions for changes to the next course date.

To meet the problem with the main course book the work with replacing the book has been initiated.

-
1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
