Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

Student writes: "If research is divided into different parts and arrange a submissions for those part and complete the research is better than submitting final research at once." This seems to be a reflection of the instruction in the Canvas instance what is "eventually" to be delivered, but the researcher guiding in this course during ht22 has requested weekly reports by email, as weekly meeting was hard for the student.

Suggestions for changes to the next course date.

Possibly, the researchers guiding students remind students (or student groups) weekly if updates have not been received.
