- C) To some extent
- D) To a little extent or not at all

**should also be analysed here. Any effect of joint courses should be commented on.**

This year is very special since there was effectively only one student in the course (though there was another foreign student, he did not finish the assignments since he did not need points). Due to the low number of the course participants the workload on the planned group labs was somehow quite intense. In conclusion, the comments from that student and the grades from the questionnaire show that this course fully achieved the tasks and goals stated in the syllabus.

**Suggestions for changes to the next course date.**

No suggestion for change.
