PUBLISHED COURSE ANALYSIS

Publishing date: 2023-02-15

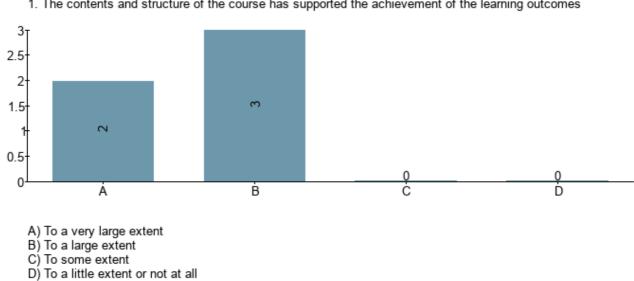

A course analysis has been carried out and published by the course convener.

The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration.

Analytic mechanics I, 7.5 ECTS cr. (FYGB08) Course convener: Sergej Moroz

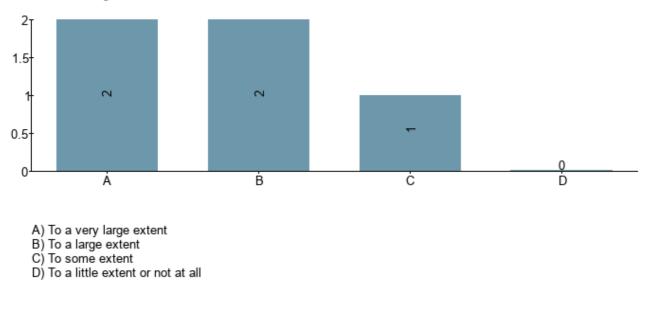

Basic LADOK data		Course Data	
Course Code:	FYGB08	Number of questionnaires answered:	5
Application Code	: 40808	Number of first registrations ^[1] : 1	11
Semester:	HT-22	, i i i i i i i i i i i i i i i i i i i	
Start Week:	202245		
End Week:	202302		
Pace of Study:	50%		
Form of Study:	Campus		

Changes suggested in the course analysis of the previous course date:

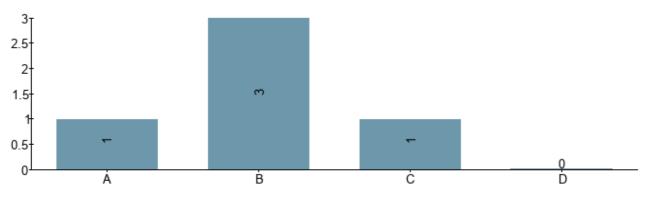

1. The contents and structure of the course has supported the achievement of the learning outcomes

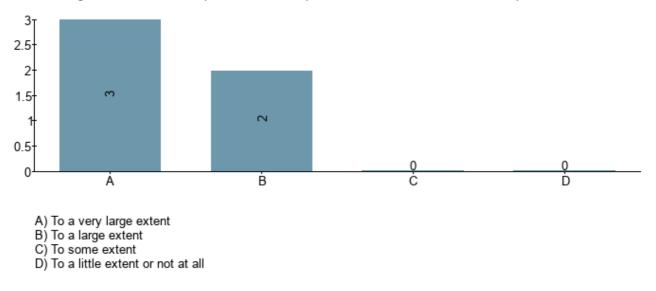

2. The assessments included in the course have given me the opportunity to demonstrate my achievement of the learning outcomes

3. My workload (including scheduled activities and independent work) during the course has been

A) 40 hours per week or more (or 20 per week or more for courses given as half-time studies, 10 hours or more for course B) Between 30 and 39 hours per week (or between 15 and 19 hours for courses given as half-time studies, or between 8 C) Between 20 and 29 hours per week (or between 10 and 14 hours for courses given as half-time studies, or between 5 D) Less than 20 hours per week (or less than 10 hours per week for courses given as half-time studies, or less than 5 h

4. During the course, I have experienced the reception from teachers and other staff as professional

Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

Students liked the structure (assignments+project presentation+project report), but would appreciate more structured information on the format and evaluation of the project presentation and report.

Suggestions for changes to the next course date.

1) Devote more time to the Hamiltonian formalism.

2) Provide more information in Canvas on the format and evaluation criteria of the project oral presentation and written report.

1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
