Strengths of the course according to the students The students agreed 1. That the course met the aims and outcomes specified in the syllabus (100%); 2. That assignments and activities were helpful learning opportunities (100%); 3. That the instructor gave useful feedback on assignments and exams (86%); 4. That class discussion activities were useful and helpful (86%), 5. That oral presentation preparation activities were useful and helpful (100%).			
Weaknesses of the course according to the students Discussion groups could have been more disciplined.			
Analysis of the evaluation results The course seems to fulfil the goals set out in the course syllabus.			
Measures planned I will continue to refine the group discussion activities. I'm also going to stress more clearly the value for language improvement of what seems to be "undisciplined" discussion - very clear from the research.			
Measures taken I have added a group of assignments more specifically geared to routine professional writing.			
How was feedback given to the students? The course seems to fulfil the goals set out in the course syllabus.
