- B) Professional and accommodating
- C) Professional
- D) Deficient

**should also be analysed here. Any effect of joint courses should be commented on.**

Unfortunately only one out of three students who took this course answered this electronic course evaluation, although all three students have finished the course with very good results. However, at the end of the meeting in Karlstad, at which they had seminars with five different teachers, they filled in a written evaluation that shows that they were pleased with the course and what they had learnt so far.

**Suggestions for changes to the next course date.**

Based on this and the written evaluations the students handed in during the course as well as the students' performance, there is no need to change anything. Everything works well.
