Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

Only 8 out of 23 students answered the questionnaire, the result doesn't represent all participated students. A separated half-time check up survey, where 6 out of 23 answered, similar result as here. Students are happy with the course organisation and structure, majority of them think the course did meet their expectation. Guest lecture components will remain, and more potential speakers will be invited in the future.

Suggestions for changes to the next course date.

There won't be major changes. More guest lecturer will be invited.
