The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

Lärlarlaget kommer att diskutera arbetsfördelningen mellan olika moduler och ev. anpassa schemat ännu bättre därefter.

Se över strukturen på Canvas då det framkommit att strukturen för olika moduler skiljer sig något åt.

Se över kursens examination, eventuellt införa salstentamen istället för avslutande seminarium som upplevdes som otydligt för studenterna.
