

PUBLISHED COURSE ANALYSIS

Publishing date: 2023-04-11

A course analysis has been carried out and published by the course convener.

The Karlstad University evaluation tool is owned by the Professional Development Unit and is managed by the systems group for educational administration.

Nanoscience II, 7.5 ECTS cr. (CBAD80)
Course convener: Hanmin Zhang

Basic LADOK data

Course Code: CBAD80
Application Code: 41905
Semester: VT-23
Start Week: 202303
End Week: 202312
Pace of Study: 50%
Form of Study: Campus

Course Data

Number of questionnaires answered: 1
Number of first registrations^[1]: 6

Changes suggested in the course analysis of the previous course date:

No major change is expected for the next year. All the activities are expected to be normal next year.

1. The contents and structure of the course has supported the achievement of the learning outcomes

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

2. The assessments included in the course have given me the opportunity to demonstrate my achievement of the learning outcomes

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

3. My workload (including scheduled activities and independent work) during the course has been

- A) 40 hours per week or more (or 20 per week or more for courses given as half-time studies, 10 hours or more for cour
- B) Between 30 and 39 hours per week (or between 15 and 19 hours for courses given as half-time studies, or between 8
- C) Between 20 and 29 hours per week (or between 10 and 14 hours for courses given as half-time studies, or between 5
- D) Less than 20 hours per week (or less than 10 hours per week for courses given as half-time studies, or less than 5 h

4. During the course, I have experienced the reception from teachers and other staff as professional

- A) To a very large extent
- B) To a large extent
- C) To some extent
- D) To a little extent or not at all

Analysis based on course evaluation, including comments fields. If information has been collected in other ways, it should also be analysed here. Any effect of joint courses should be commented

on.

This year the Nanoscience II course went very smooth. Majority of the students attended the lectures and all students finished their home works. One of six students answered the survey. The grades from the questionnaire show that this course has accomplished the goals stated in the syllabus. The combination of the homework feedbacks and the seminars seemed to efficiently motivate the students. The final examination results show that the course task has been fulfilled in general.

Suggestions for changes to the next course date.

The same activities are expected for the next year.

-
1. **Number of first registrations for a course:** First registration = the first time a student registers for a specific course.
