Changes suggested in the course analysis of the previous course date:

Kursen kommer inte att byta litteratur. Stimuleringen av studenternas självständiga arbete, helst i grupper, behöver utvecklas ytterligare. Projektpresentationerna i kortformat kommer att göras tillgängliga för samtliga studenter via It's. Information om olika kursdelars nivå, grad av djup, ska göras tydligare.

3. On average, I spent the following number of hours on coursework per week:

4. During the course, I have found that teachers and other staff have been:

should also be analysed here. Any effect of joint courses should be commented on.

The students have to a great extent reached the goals of this course. Although the number of lectures have been increased and the material covered has been more focussed, some students express that they still want more presentations to develop better lecture notes. The book is considered good, but the students want better reading instructions. The forms for learning (seminars, lectures, lab) receives very positive evaluations.

Suggestions for changes to the next course date.

No major changes are necessary. Some further development of the Reading instructions should be made.
