Results of learning

All in all, the course was valuable for me.

Courses that were considered valuable were related to personal development, acquisition of new knowledge and skills, understanding of something. Higher ratings can refer to students' perceived development (learned a lot, and it was useful). Lower ratings can refer to scanty development of knowledge and skills or not understanding certain themes or their parts, not understanding the necessity and significance of the course, problems in the learning environment.

How likely would you be to recommend this course to a friend or colleague?

Net Promoter Score (NPS) = 100

Promoters = 2 (100%)

Passives = 0 (0%)

Detractors = 0 (0%)

The Net Promoter Score (NPS) is a metric that measures student experience and predicts the effectiveness of a course. It calculates an NPS score based on a key question using a 0-10 scale, asking how likely students would recommend the course to others. Respondents are grouped into Promoters, Passives, or Detractors based on their score, and the NPS is calculated by subtracting the percentage of Detractors from the percentage of Promoters. The NPS is a core metric for course evaluation programs and is trusted by educational institutions to engage their students and improve their learning experience performance.

Course supervisor's comments

Av respondenterna var det för det mesta goda erfarenheter. De upplevde att undervisningsformen fungerat och att de fått gott om tid för inläsning (kursen gick på kvartsfart). Respondenterna tyckte också att litteraturvalet varit intressant och att diskussionerna varit bra och självständiga. Någon tyckte att det även skulle varit gruppdiskussioner för att göra seminariet lite mindre formellt och det är en bra idé som vi ska se om vi kan integrera till nästa kursstillfälle.
