Course analysis

VT2026_MSAE01_49163_Examensarbete för civilingenjörsexamen i maskinteknik

First time registered students: 53

Answer Count: 12

Answer Frequency: 22.64%

The course evaluation could be answered during the period:

01/06/2026 - 15/06/2026

When collaborative courses, several course codes are shown below:

MSAE01 Examensarbete för civilingenjörsexamen i maskinteknik, End date: 2026-06-07

Comments

Course supervisor's comments

The course evaluation indicates that the thesis course generally achieved its intended academic outcomes. Students particularly valued the development of independent research skills, scientific writing, presentation, critical evaluation, and other competencies relevant to graduate-level engineering work. However, the evaluation also identifies several areas for improvement, including clarity of course expectations, consistency of university supervision, scheduling, and the quality and constructiveness of feedback, which will be addressed and clarified in the future.
