The feedback was very positive and the course seems to have achieved its overall objectives. Only two comments were received: a personal comment on how the assignment lectures are structured and one congratulating the organization of both security courses, which we quote:

"Both the computer security courses have been great. And I think some of the other cs courses could learn a lot from them in how to create a good and well structured course. Great work."

Suggestions for changes to the next course date.

For the upcoming course, we will reshuffle the order of the lectures.
